# Ponteggio

design Emilio Nanni

Il Tavolo Ponteggio nasce dall'espressione di più talenti: quello creativo di Emilio Nanni e quello produttivo della nostra filiera. La struttura, che richiama la forma reticolare delle impalcature, sorregge un piano MDF laminato o HPL. Tutti i dettagli del "Ponteggio" sono visibili e completano questo capolavoro contemporaneo.

The Ponteggio table was born from the expression of several talents: the creative one of Emilio Nanni and the productive one of our supply chain. The structure, which recalls the reticular shape of the scaffolding, supports a laminated MDF or HPL. All the details of the "Scaffolding" are visible and complete this contemporary masterpiece.
